COOPERATIVE
EXTENSION
SERVICE

THE UNIVERSITY OF GEORGIA COLLEGE OF AGRICULTURE ATHENS, GEORGIA 30602

Office of the Director

Dear Friends:

Georgia is a state in transition. Rapid population and economic growth has occurred at an unprecedented rate. Georgia is currently the 10th fastest growing state in the nation. The state's rapid growth will directly affect the daily and future lives of all Georgians.

In order to assist community leaders and interested citizens to better understand how and where Georgia is changing, The University of Georgia's Extension Service has developed the Georgia County Guide.

The 1987 County Guide is one of several efforts by the Cooperative Extension Service to provide information and assistance to the State of Georgia and its' local units of government. For more information on assistance available, contact any county Extension office.

Most Sincerely,

Tal C. DuVall

Tal C. DuVall
Director

THE UNIVERSITY OF GEORGIA, THE U.S. DEPARTMENT OF AGRICULTURE AND COUNTIES OF THE STATE COOPERATING
The Cooperative Extension Service offers educational programs, assistance and materials to all people without regard to race, color, national origin, age, sex or handicap status. A UNIT OF THE UNIVERSITY SYSTEM OF GEORGIA

Marriages; Total Number, Rate, Black, White 158-159
Reported Cases of Child Abuse, Alcohol & Drug Related Deaths 160-161
Sexually Transmitted Diseases, Suicides 162-163

NOTES **164-165**

SOURCES **166-171**

Editor's Note:

The 1987 Georgia County Guide contains 72 tables of agricultural, educational, economic and demographic facts and figures for all 159 of Georgia's counties, plus 14 maps collected from 32 federal and state agencies and 6 private companies.

The principal concern is that the Georgia County Guide should be an accurate, up-to-date and easy to use reference work. The contents of this publication can be reprinted or otherwise used without written or oral authorization, but acknowledgement of the proper source would be appreciated. Individuals and organizations are encouraged to use the material for information purposes.

Help and cooperation on this publication came from government agencies, private industries and individuals. Thanks are offered to the Cooperative Extension Service for logistical, secretarial and professional support.

A special thanks to Sue Boatright. This year's book would never have been completed without her dedication, hard work and valuable suggestions. Her assistance is deeply appreciated.

Thanks must be given to Dulcie Phillips, William White, Lynn Loyd and Jackie Boleman for all of their help.

Suggestions from users plus the development of a better system to manipulate the data have enabled us to improve and expand the format. Comments, corrections and suggestions for additions or improvements of this work are invited.

The cover was designed by Vincent Keesee.

Counties with less than 100 acres harvested not shown separately

- Data not available

Experiment Stations: 1987

1. College Station, Athens
   Clive Donoho, Jr., Associate Dean and Director
   College of Agriculture
   Experiment Stations
   107 Conner Hall
   The University of Georgia
   Athens, GA 30602, (404)542-2151

2. Georgia Station, Experiment
   Associate Director (no current director)
   Experiment, GA 30212, (404)228-7283

3. Coastal Plain Station, Tifton
   Gale Buchanan, Associate Director
   Tifton, GA 31793, (912)386-3338

4. Georgia Mountain Branch Station, Blairsville
   James W. Dobson, Superintendent
   Rt. 1, Box 1005
   Blairsville, GA 30512, (404)745-2655

5. Northwest Georgia Branch Station, Calhoun
   Edward G. Worley, Superintendent
   Calhoun, GA 30701, (404)629-2696

6. Central Georgia Branch Station, Eatonton
   Grady V. Calvert, Superintendent
   1508 Godfrey Rd., NW
   Eatonton, GA 32024, (404)485-6015

7. Southeast Georgia Branch Station, Midville
   Charles E. Perry, Superintendent
   Midville, GA 30441, (912)589-7472

8. Southwest Georgia Branch Station, Plains
   Robert B. Moss, Superintendent
   Plains, GA 31780, (912)824-4375

9. Attapulgus Extension & Research Center, Attapulgus
   Dr. Wayne McLaurin, Superintendent
   Extension Research Center
   Attapulgus, GA 31715, (912)465-3421

10. Coastal Area Extension & Research Center, Savannah
    "Bamboo Station"
    Charles M. Bruce, Superintendent
    Rt. 4, Box 433
    Savannah, GA 31419, (912)925-1056

* Metropolitan County

--- Data not available

[1] Layers on farms as of January 1 for each year.

[2] Broilers reported: 1983, 1984, and 1985 production.

[3] Counties with less than 500 hogs and pigs not shown separately.

Number of Farms, Harvested Cropland: 1969, 1974, 1978, 1982

\# Represents an increase or decrease from a zero base

[1] Commitment of a child to the department of Human Resources was instituted by law in 1963 and implemented by the Division of Youth Services in 1965. It is often the final disposition of the Juvenile Court when probation or other counseling services have failed to prevent a chronic or serious offender from returning to the attention of the court.

* Metropolitan-County

[1] An establishment is a single physical location where business is conducted or where services or industrial operations are performed.

[2] Employment is the count of employees during the pay period that includes March 12, as reported on Internal Revenue Service Form 941, or as corrected by estimates in those cases where it was incompletely or improperly reported.

Establishments, by Industry: 1984

\# Metropolitan County
@ Indicates prior year property digest

1
Master Economic Rank is determined by using the information of personal income, sales tax receipts, motor vehicle tags, and assessed property value.

2
Based on sales tax

3
Rank: 1 = highest (range, 1-159)

4
Reported on Georgia Returns

Median Family Income, Total & Black: 1969-1979

* Metropolitan County

[1] Rank of size and population: 1 = largest (range, 1-157), [3] (range 1-159)

[2] Population per square mile is calculated by dividing the total county population by the number of square miles in each county.

* Metropolitan County

[1] An urbanized area consists of a central city or cities and surrounding closely settled territory ("urban fringe").

[2] Urban areas are places with 2500 or more inhabitants.

[3] A farm is a place with $1000 or more in sales of crops, livestock, or other farm products during the preceding calendar year.

* Metropolitan County

[1] Live birth: a newborn showing any evidence of life (breath, heartbeat, or movement of voluntary muscles) after complete birth
Low birth weight: live birth with a weight of less than 2,500 grams

[2] White and black figures do not equal total number in every case due to the presence of other minorities not included in either racial category.

[3] See Notes (page 165)

9 Metropolitan County

1
White and black figures do not equal total number in every case due to the presence of other minorities not included in either racial category.

2 2
Rank: 1 = lowest (range, 1-116), (range, 1-79)

* Metropolitan County

\# Represents an increase or decrease from a zero base

[1] Rank: 1 = lowest (range 2-160), [2] (range, 1-151), [3] (range, 17-160)

NOTES

In every table counties with an asterisk (*) beside their name are metropolitan counties.

A metropolitan county is a county that is part of a Metropolitan Statistical Area (MSA). All other counties are nonmetropolitan counties. In 1987 Georgia had 38 metropolitan and 121 nonmetropolitan counties.

The general concept of a metropolitan area is one of a large population nucleus, together with adjacent communities which have a high degree of economic and social integration with that nucleus.

Each MSA has one or more central counties containing the area's main population concentration: an urbanized area with at least 50,000 inhabitants. An MSA may also include outlying counties which have close economic and social relationships with the central counties.

Pages 16-17 **AGRICULTURE**
Number of Farms, Harvested Cropland: 1969, 1974, 1978, 1982

A farm, as defined for the 1974 final reports and the 1978 and 1982 census, is any place from which $1000 or more of agricultural products were sold or normally would have been sold, during the census year.

The following definition (used for the 1959, 1964, and 1969 censuses, and for the 1974 preliminary county reports) counted a farm as any place with less than 10 acres from which $250 or more of agricultural products were sold or normally would have been sold during the census year, or any place of 10 acres or more from which $50 or more of agricultural products were sold or normally would have been sold during the census year.

Pages 20-21 **COURTS**
Superior Courts' Case Loads: 1985

[1]Indictments and accusations docketed in the court during the fiscal year.

[2]Terminations of cases in the fiscal year. When dispositions exceed the filings, this indicates the termination of cases which have been filed in the fiscal year and cases from the previous years.

[3]Indicates the docketing of the complaint or petition that initiates the case. Civil Dockets include the majority of all civil actions before the court including contracts, torts, domestic relations, and routine proceedings such as garnishments, foreclosures, and dispossessories.

[4]Termination of the action. This includes settlements and dismissals before trial judgments as well as trial termination.

[5]Backlog. Criminal cases 4 months to 6 years; civil cases 6 months to 6 years.

Pages 26-27 **CRIME**
Reported DUI Arrests: 1979-1984

$$\text{DUI Rate} = \frac{\text{Number of DUI Arrests}}{\text{Total Population}} \times 1000$$

County Systems and Independent City Systems; Number of Schools, Enrollment, Graduates, Dropouts: 1984-1985

$$\text{Crude Dropout Rate} = \frac{\text{Total Dropouts}}{\text{Total Enrollment}} \times 1000$$

Pages 87-88 **HOUSING**
New Privately Owned Housing Units Authorized in Permit-Issuing Places: 1976-1985

The information for 1984-1985 was collected from approximately 17,000 places identified as permit-issuing in 1984. This universe accounts for a major portion of new residential housing units started in the United States. In 1985, about 92 percent of all new private housing intended for occupancy on a housekeeping basis was constructed within permit-issuing places. Permit data for 1978-1983 were tabulated from a 16,000 permit place universe.
